

# PROJECT MANAGEMENT CONSULTING

In partnership with mbh consulting, A&B Mylec Pty Ltd delivers advice, methodology and facilitation services in the areas of portfolio management, change management, program management and project management.

## OUR AIM

Our aim is to focus on strategy execution and to develop methodologies and tools to assist organisations execute their strategy.

## CONSULTING OFFERINGS

Our project management services span all phases of a project from concept through to close-out, covering the roles, responsibilities, checks and controls across the lifecycle of projects. We employ workshops that address each stage of the project lifecycle, such as project planning, and key PMBoK knowledge areas, such as risk management. A key advantage of the workshops is that they dramatically shorten the time it takes for project planning and scoping by ensuring team members are clear from the outset on their roles, responsibilities, tasks, and deliverables.

Our program management services assist organisations build their capability to effectively manage programs including project management office setup, project awareness, project registration and program mentoring.

Our portfolio management services enable organisations to classify and rank the programs and projects within portfolios, so only those with the highest potential to add value continue. Services include stage gate investment approval process setup, development of prioritisation frameworks, business case development, financial evaluations, benefits realisation management and enterprise project portfolio software (UniPhi) implementation.
