NATIONAL WORKFORCE DEVELOPMENT FUNDING

The **National Workforce Development Fund** aims to assist individual enterprises and industry sectors to increase their workforce capacity by providing employers and workers with the opportunity to enhance their skill levels through formal training. The fund is based on a sliding co-contribution model where Employers are required to co-contribute to the agreed cost of training with the NWDF. Depending on the number of FTE staff the NWDF can contribute up to 67% of the training costs. Contact A&B Mylec to discuss eligibility.
